

Design the Living Quarters Horse Trailer of Your Dreams

Expertly designed living quarters can transform a simple horse trailer into a 'home away from home.'

Explore this brochure and begin to customize your very own dream trailer!

Let our expert designers and craftsman build you a comfortable retreat your friends will beg to visit.

Our custom living quarters horse trailers can be built in a variety of styles for 2-4 horses. Choose a living quarter size and style that fits your lifestyle – and your budget!

Need a different size or customized horse features? Just ask. Send us a text now at 910-444-2880.

If you can dream it, we can build it.

Our living quarters trailers have unique features you won't find anywhere else.

- SafeTack Reverse options for more comfortable travel and less stressful loading,
- Fully designed and installed living quarters done in house – so everything matches exactly what you imagined,
- And expert service for every stage of the buying process – including design, \$395 flat-rate delivery, towing guidance, and a nationwide warranty service program.

Since 1997, custom horse trailers from Double D Trailers have provided the most innovative safety features in the industry.

Double D Trailers is different from other brands because of our emphasis on safety...

Our one-of-a-kind safety features work in harmony to protect both you and your horse.

Happy Customers Share Their Experience Buying Online from Double D Trailers

“The trailer is by far the best bang for the buck that I have seen!”

~Doug Brown

“I cannot tell you how overjoyed we are with the new trailer. Your attention to detail rivals that of the finest RV trailers. These trailers are by far the best value on the market. The horses travel superbly well and load very easily. The living quarters are awesome. GREAT WORK!”

~Leslie McDonald & Douglas Froh of OH

“We can’t wait to take it on our first trip. We received the trailer today and were very impressed. The finish work is excellent and the amenities are great. ”

~Paul and Kim Gardin of Hampton, VA

“Everything is so well made and it’s more than I expected. Internet shopping is good but you cannot grasp the quality and workmanship of your trailers from pictures or even videos. ”

~Susan Day from South Carolina

“My little trailer is absolutely perfect. For such a tiny space, the storage is extensive and exceptionally well designed.”

~Rosemary Lawler of VA

“Every time someone saw me near it they would stop and ask about it. I gave 2 tours of the LQ!”

~Ivy Loftice of Kentucky

“The custom design interior plan was exactly what I ordered. I would just love to say a big ‘Thank you’ for making my family such a beautiful trailer. Our 3 horse Renegade is the most awesome trailer. I’m sure that many more Aussie’s will be towing a Double D Trailer in the years to come.”

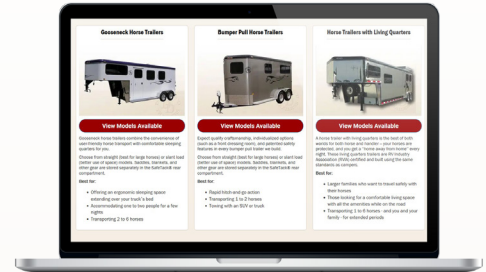

~Sandy Tucker of Australia

Go Online to Start Designing Your Custom Horse Trailer Today

It's easy and even FUN! Here is the entire process in seven steps.

Step 1: Use our FREE Tool to Start Designing Your Trailer.

On our homepage, click the big red button that says "Start Designing Your Trailer" to start choosing features for your dream trailer. Or, click the gold medallion below!

Step 2: Submit an Online Build Request

Select one of the suggested models and click "Customize" to start checking off boxes for the features you'd love to have. Review your trailer and give us some information about yourself so we can get in touch. Click "Submit Build." No cost or obligation.

Step 3: Detailed Pricing Estimate

Once you submit your request, our team will review your selection and look for any feature conflicts. For example, it is not possible to select both a front escape door and a manger. Once reviewed, we will next send a detailed pricing estimate.

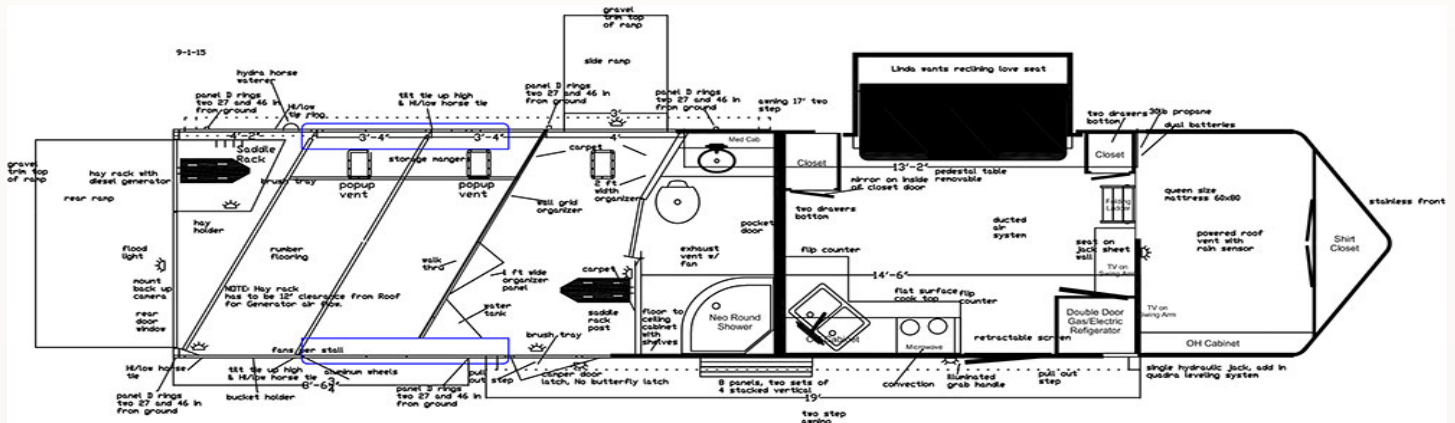

Click to design your trailer with our **FREE** tool!

Step 4: Design Discussion with Our Experts

You will then begin an ongoing conversation with our experts to refine the design and establish the final pricing. We can help you add in special requests or remove unneeded features to stay within a budget. Don't worry. Our design team makes this step fun!

Step 5: CAD Drawing

We do our trailer and living quarter designing completely in-house from the ground up. We'll help you pick out the best features, listen to any special requests and create a detailed CAD drawing such as the one below.

Step 6: Approval and Start of Construction

Once you are happy with the final design, pricing, and order details, the estimate is converted to an official order. We will begin construction on your new trailer while you shift your thinking to final touches like cabinet fixtures, sofa fabrics, and paint colors.

Step 7: Final Touches

Any decorative features like outside graphic and color can be determined after the trailer construction has begun. From here, you can sit back and relax until your brand new trailer is delivered to your driveway.

Discover the Difference With Double D Trailers

Our living quarters horse trailers are a cut above the rest.

We do all of our living quarters installation in-house rather than sending it out to a separate company. This results in a trailer where all of the pieces fits just right. You'll have a custom designed interior that matches your style and taste rather than some cookie cutter design.

And since our trailers are all custom-built to order, you'll know well in advance what features can and cannot work in your space. Nothing gets lost in translation, the process moves faster, and prices drop as a result.

Double D Trailers owner Brad Heath explained, "Most manufacturers are decent at cranking out repetitive work, but not so much on creating custom designs."

Once your trailer is finished, we're still there to help with any repairs using our Nationwide Warranty Service Program and Guarantee.

This ensures you can keep your investment looking its best for years to come!

We Can Meet Any Design Challenge

Here is the story of one happy customer who had very specific needs...

Dee Montenez of Texas wanted a reverse load style, watering system, and the ability to haul her motorcycle along with the horses. She shared, "After months of researching trailers on the internet, I was fed up with the look of the aluminum trailers."

"My experience on my custom build trailer with Brad was superb. As a matter of fact, we never spoke on the phone not even once. I started with an online quote, emails, social media, and texts. There was some sense of peace of mind while making the deal with Brad. A sense of trust. I sensed his honesty and integrity from the start and those values I do not take lightly.

"I wanted a builder that would stand behind their work with customer satisfaction and not just a sale."

"I got on my custom build trailer everything I wanted from start to finish. Every selection was in detail and Brad was able to offer different ideas and choices taking in consideration the budget and availability of features. I was not too familiar with the reverse loading but after watching videos of Brad explaining all the features and the different trailers it was a no brainer. All I knew was, I did not want an aluminum trailer – not a straight load trailer – after watching video after video. I took months to decide and researched A LOT."

"I love every feature on my custom build trailer. From the color selection to the appliances to the size to the horses area, television, radio, speakers, fan, ac, cameras, horses fans, lights, shower, hidden door, steps, side and rear ramps, screens on windows, windows, ...everything... The color selection on valances, sofa, floor and appliances. The 6-ft refrigerator and lifted cabinets. The mirrors on headboard and steps to get on bed area. What is not to like? I chose everything very carefully. It is a big investment. LOL."

Meet Our 4 Living Quarter Model Options

Our top models feature full living quarters with all of the comfort features you could want.

SafeTack Reverse Living Quarters Trailer – Our Top Model!

This combination forward or reverse load model is our most popular living quarter trailer because it offers all of the top safety and luxury features you could want.

The SafeTack Reverse can be customized to fit 2 to 6 horses with spacious 10–13' short wall options. All living quarters come standard with hardwood cabinets, wooden crown moldings, a corner shower, and Soft Touch Walls.

This model comes standard as a combination forward or reverse facing trailer with a side door and ramp that will make a world of difference for your loading and unloading safety.

Trail Blazer Living Quarters Horse Trailer – Affordable Living Quarters

The Trail Blazer Living Quarters horse trailer is a great option for people who want a functional living quarters model with fewer bells and whistles. This trailer can hold 2 to 3 horses with short wall options ranging from 7' to 9' in length.

The Trail Blazer is perfect for a horse owner who wants all of our top safety features like the “no leak” fiber-composite SafeBump roof system, Z-Frame technology, Galvalite skin, extra rear safety divider, and the SafeTack storage compartment for safer loading and unloading. Best of all, this trailer lets you pick-and-choose from a range of additional upgrades like rear-facing orientation, 96" extra width for larger horses, and enhanced interior features.

and details on each model.**

Meet Our 4 Living Quarter Model Options

Want something smaller or simpler?
Check out these two trailers.

The Basics LQ Horse Trailer - The Bare Necessities on a Budget

The Basics Living Quarter model is our most basic design. It's perfect for people who need a simple solution for running water, space to use the bathroom, and useful cabinet storage. It even has a handy "Cowgirl Shower" located in the horse area for private bathing. The finishings are definitely not fancy, but it's a cost-effective way to have comfortable living quarters without breaking the bank.

[Customize This Model](#)

One Horse Bumper Pull With Living Quarters - Perfect for One Horse!

If you own just one horse and you want convenient living quarters without the hassle of a huge trailer, this model is perfect for you!

This is our popular one horse living quarters horse trailer that weighs only 5,100 lbs with a tongue weight of only 600 lbs. This means it's the perfect little trailer to transport your single prized horse. The living quarters area has a drop down dinette for eating which converts into a bed. A small kitchenette is available for meal prep along with a bathroom.

[Customize This Model](#)

Please note, this is one of the ONLY safe bumper pull living quarters model on the market. Since it only carries a single horse, we can be sure of load distribution. Other bumper pull living quarters models on the market for 2+ horses often place an unsafe, heavy tongue weight on the rear end of your tow vehicle.

Explore the following pages for more photos
and details on each model.
